

As we close out 2025, we're humbled by how God continues to move through your prayers, partnership, and the countless open doors He's provided.

This year has been marked by **breakthroughs we've prayed for over years**, new disciples stepping into multiplication, and watching the gospel of Jesus transform lives in our neighborhood, on college campuses, and in our own home.

Praise God we now have a peaceful place to live- **thank you for standing with us and carrying us with prayers + support.**

Andrew and Philip are now in 2nd grade. They're reading like crazy, asking to hear Jesus stories at dinner every night, and praying for anyone who's sick or hurting. God has been speaking to Andrew through dreams with messages for us.

Both **want to hear God's voice and truly know Jesus**, not just know about Him. When they get hurt or see someone else hurting, their first instinct is to ask for prayer because **they believe Jesus heals**. They literally ask every new kid at the park, "Do you know Jesus?" It melts our hearts every time. We kept them at Flushing Christian School, which has been **great for their faith and growth**.

Andrew
(AGE 7)

Philip
(AGE 7)

The **financial pressure** is real with higher rent, but God has been faithful and is strengthening our faith through small, **tangible provisions**. Free jeans for Meg that fit perfectly. A keyboard for worship. Soil for a container garden. Veggies from neighbor for the evening's meal.

Each one felt like God saying, "I see you."
Those moments have pushed us to pray
more boldly for what we need.

A few highlights we are celebrating from
this past year...

Gen Z Multiplication:

Jonathan, Seth, and Jaden came to faith this Fall at Queens College. Two got baptized and the third did the baptizing!

Over the last year in Queens, Julio came to faith in August, and six weeks later led Peter to Christ, trained him, and baptized him. Disciples making disciples who make disciples.

Muslim Background Believers:

Natasha started reading the Bible in August after finishing the Quran. Within a couple months she received Christ, saying her mental health "dramatically improved." When she prayed yes to the Holy Spirit, she felt "a warm weightiness like a big hug." Hoss and his wife (who was locked up by her family years ago for following Jesus) both committed to Christ and were baptized after she was disowned by her family.

Muslim background believer: within a couple months she received Christ, saying her mental health "dramatically improved."

Caribbean Expansion:

Mark spent 10 days in Trinidad and St. Vincent training over 60 people. We met Raymond, an obedient person of peace who's actively leading people to faith and connecting us with leaders.

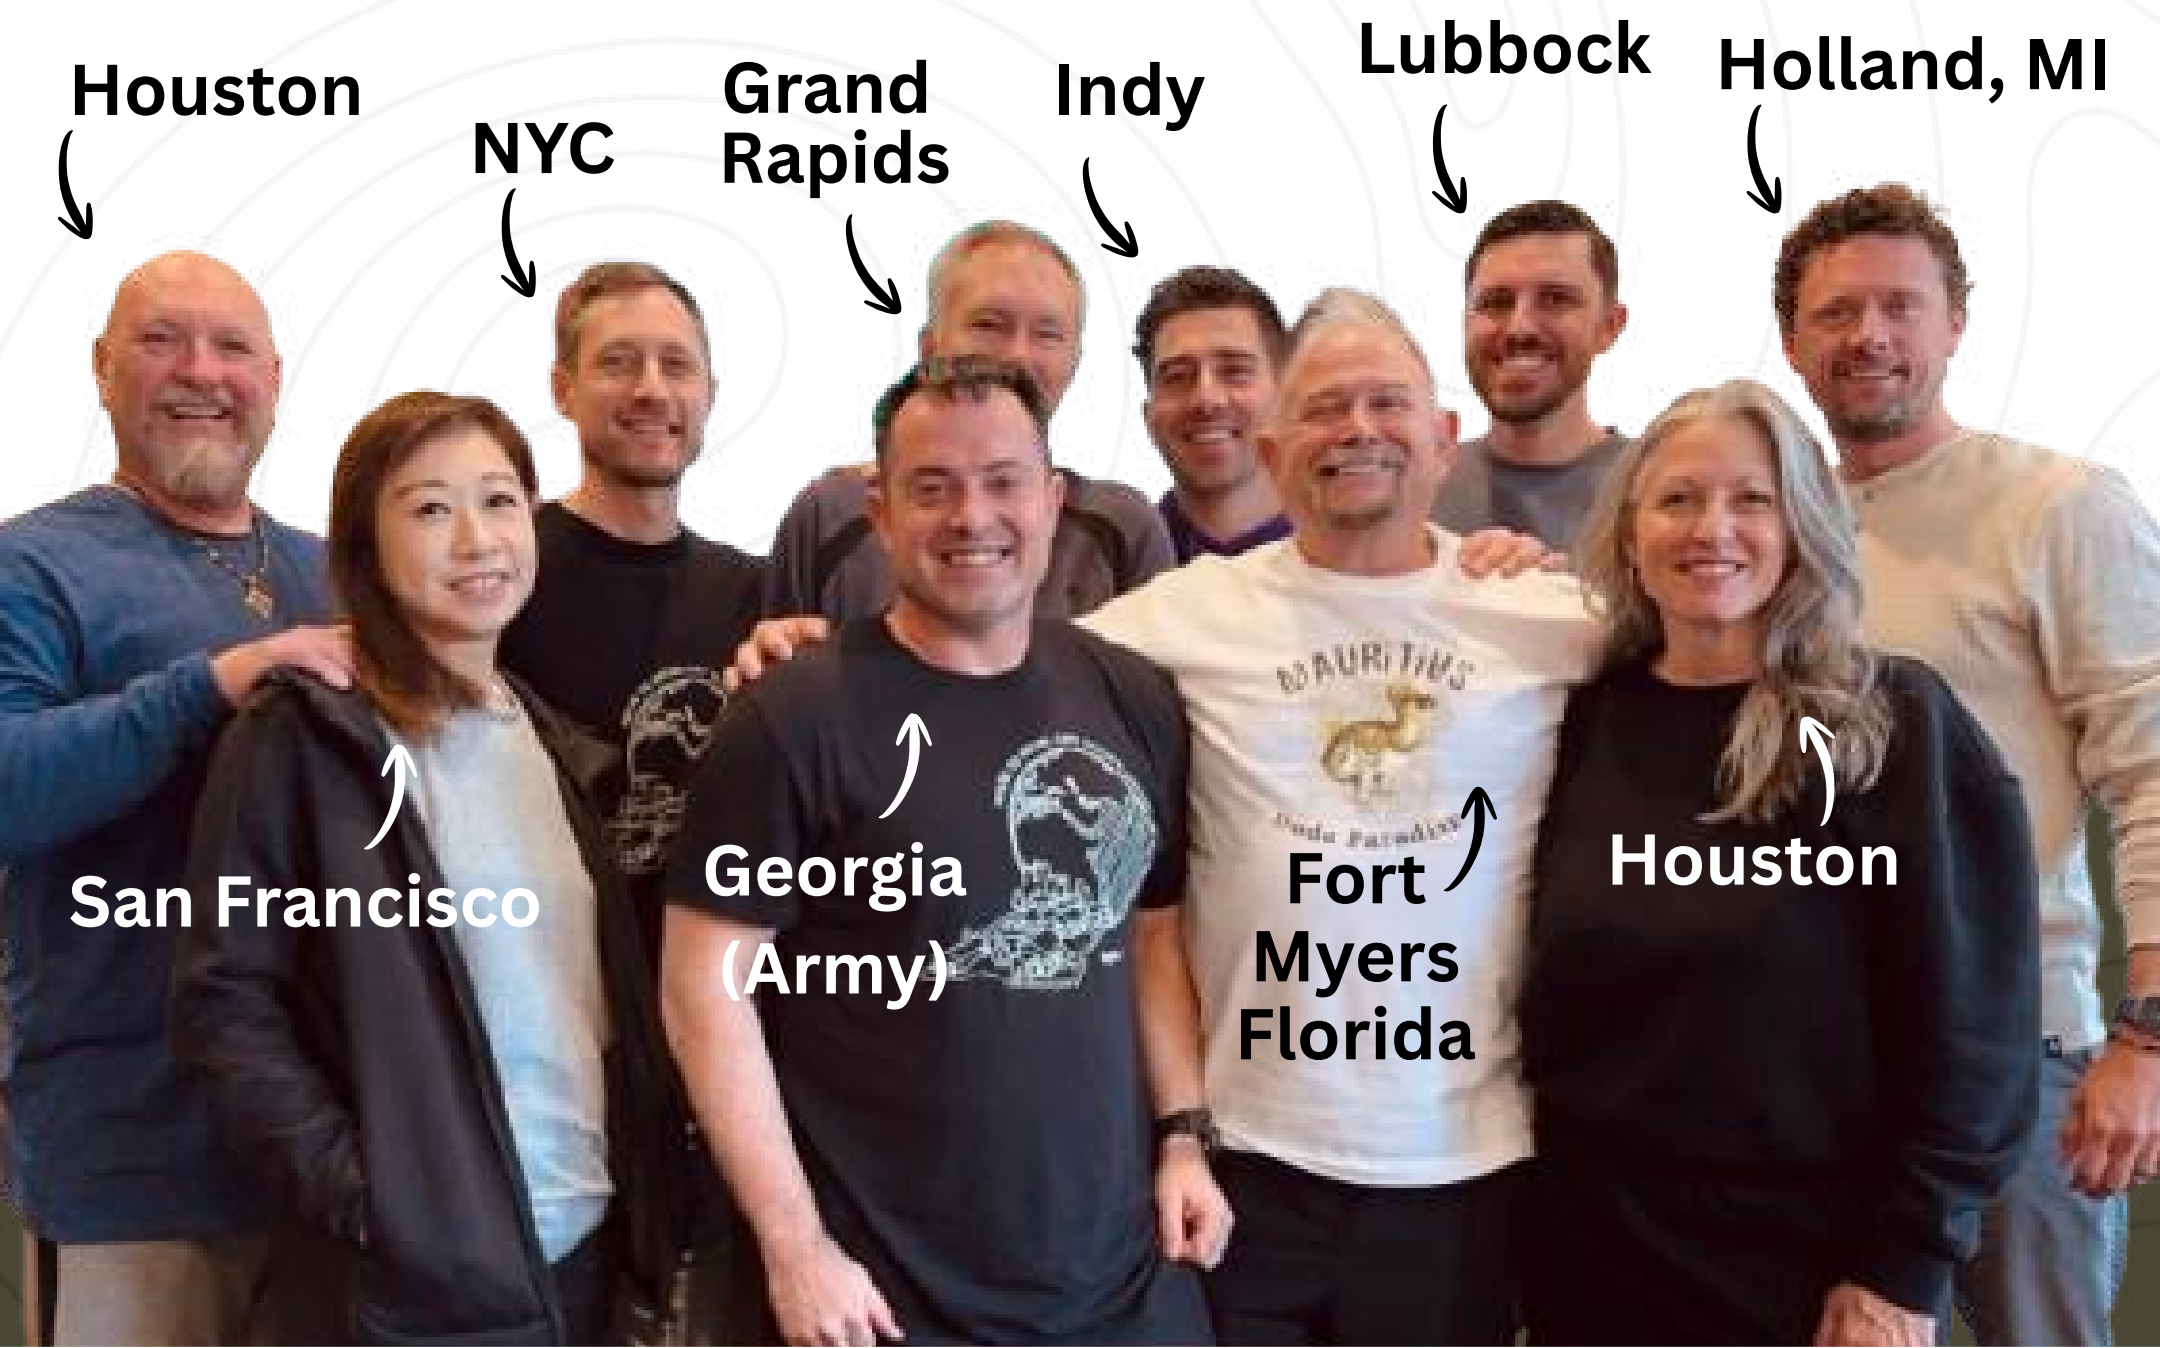

Himalayan Peoples Breakthrough:

After years of sowing, Meg and others launched a new conversation class for Tibetan and Nepali speakers. Every week, students share burdens, receive prayer and learn English through bible stories. Since June, over 20 people with very limited English have heard the gospel in their language. This class has given Himalayan believers vision for the Great Commission + a platform to boldly share Jesus with others.

20 Himilayan Peoples with very limited English have heard the gospel in their language.

City to City Network:

Mark connected with leaders across Portland, San Francisco, Houston, Indianapolis, Grand Rapids, and Tampa. We're becoming a family of churches multiplying house to house, city to city. Guy and Kelli Caskey from Houston came for a problem-solving retreat in Queens.

CoVocational Multipliers Hub:

Partnered with Dave Miller and Nathan Elliott from Oklahoma to mobilize church planters who integrate work, faith, and family. Inspired by Priscilla and Aquila's tent-making model—sustainable multiplication without burnout or big budgets.

NYC VISION

Queens Vision: Reach Queens, reach the nations. Through gospel saturation and multiplication.

Our Role: Multiplying disciples, leaders, and churches in every people and place through a "boatful" of leaders."

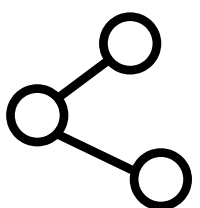

Prayer. Through prayer, Meg and others have had **dreams and senses from God** that have directly **led to the starting of new cross cultural classes** and bringing the gospel to the lost.

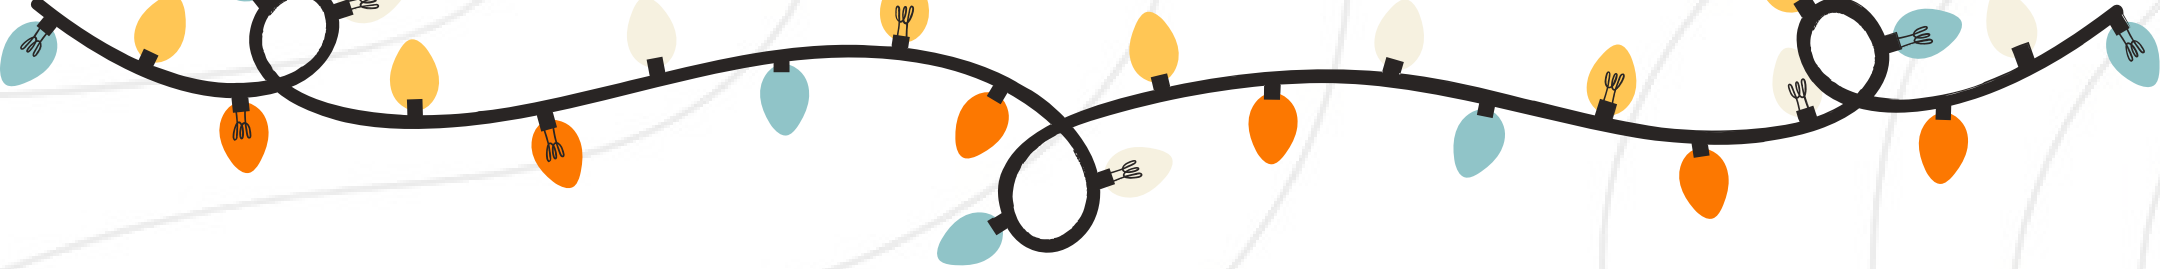

Baptisms. We celebrated **6 baptisms** in Queens through City on a Hill Church, with powerful stories like Talha following from a Muslim background. **4 more baptisms through those we coach!**

Gospel Sharing. **Over 400 gospel shares this year!** We have seen a real ownership in starting spiritual and gospel conversations using the conversation box, as students and leaders boldly engage through their personal network, at Queens College, and in local parks.

Disciples, Churches, and Leaders. Disciples committed to simple church by naming their gathering “**City on a Hill Church**” and we are engaging a new segment at Queens College to start a new church.

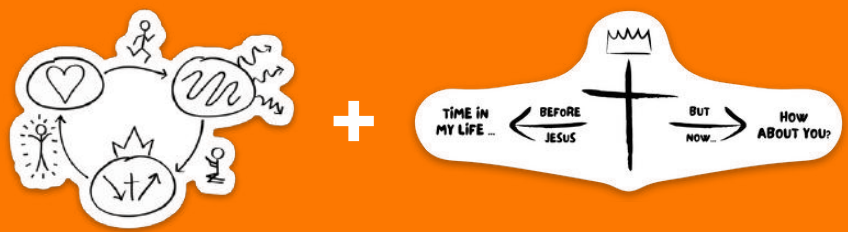

Two Christmas *Gifts for You*

Did you know...we use StickerMule to create stickers at cost—simple tools to help people share the gospel in everyday moments.

GIFT #1 – \$10 off StickerMule

Get \$10 credit

We were given a coupon by StickerMule and wanted to share it with you! Get \$10 worth of stickers for free—all you have to pay is shipping. **TAP TO REDEEM**

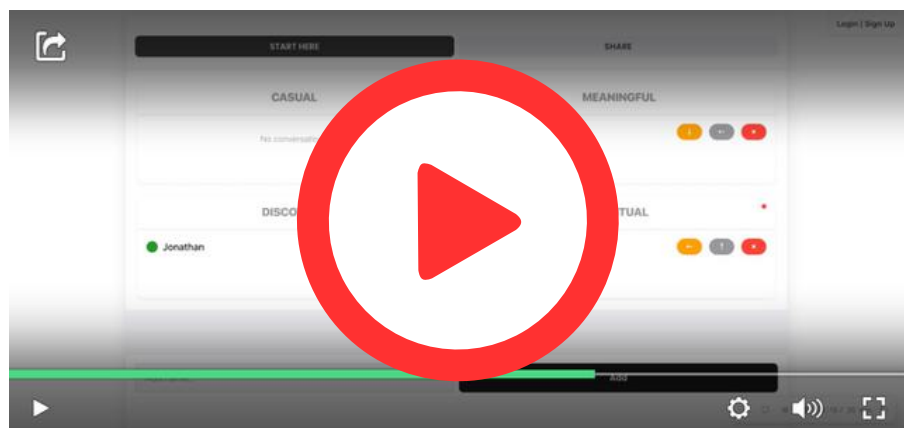

GIFT #2 – Conversation Box Video

We also recorded a short Loom showing how to use the Conversation Quadrants—a practical way to move from casual → meaningful → spiritual → discovery conversations, just like Jesus did.
